

REMARKS

The present preliminary amendment is intended to adapt the application to current USPTO practice. More particularly, the amendment cancels Claims 1 – 8 of the international application, and adds new Claims 9 – 28. As Claims 1 – 8 are cancelled, and new Claims 9 – 28 do not include multiple dependent claims, the requirement to pay additional claim fees is believed to be moot. However, should the Office determine that additional claim fees are still required, the Office is authorized to charge these fees to the below Deposit Account.

Further, the amendment adds section headings to the specification.

In the event that the transmittal form is separated from this document and the Patent Office determines that an extension of time and/or other relief is required, Applicant petitions for any required relief including extensions of time and authorize the Commissioner to charge the cost of such petitions and/or other fees in connection with the filing of this document to **Deposit Account No.: 502464** referencing **client reference: 2004P01759WOUS**. However, the Commissioner is not authorized to charge the cost of the issue fee to the Deposit Account.

Date:

6/7/07
